Mr. Johnson,

I left you a brief voice message and just want to follow-up with an email.

The Department of Defense has reviewed the proposed Draft NRC Regulatory Issue Summary 2011-xx; NRC Regulation of Military Operational Radium 226 published in the Federal Register on July 8, 2011. The Department of Defense is requesting a 75 day extension (comments due on November 21, 2011) and request a meeting with the NRC staff to be held during this extended comment period. We feel this staff level dialogue will benefit both agencies and reduce the number of potential comments submitted.

I will send our formal request for an extension via letter next week. I look forward to discussing this issue with you.

VR,

deborah morefield
