2. FPL Letter to NRC L-2011-284 dated July 29, 2011, Response to NRC Environmental Request for Additional Information Letter 110614 (RAI 5763 Revision 2) Environmental Standard Review Plan Section 2.3 – Water

Florida Power & Light Company (FPL) provides, as an attachment to this letter, its response to the Nuclear Regulatory Commission's (NRC) Request for Additional Information (RAI) 2.3-5 provided in Reference 1. FPL informed the NRC of the schedule for submitting this response in Reference 2. The attachment identifies changes that will be made in a future revision of the Turkey Point Units 6 and 7 Combined License Application (if applicable).

If you have any questions, or need additional information, please contact me at 561-691-7490.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on August 30, 2011.

Sincerely,

A handwritten signature in black ink, appearing to read 'W. Maher', is written over a horizontal line.

William Maher  
Senior Licensing Director – New Nuclear Projects

Attachment: FPL Response to NRC RAI No. 2.3-5 (RAI 5763 Revision 2)

cc:

PTN 6 & 7 Project Manager, AP1000 Projects Branch 1, USNRC DNRL/NRO  
Regional Administrator, Region II, USNRC  
Senior Resident Inspector, USNRC, Turkey Point Plant 3 & 4

**NRC RAI Letter 110614 Dated June 14, 2011**

**SRP Section: EIS 2.3 – Water**

Question from Environmental Technical Support Branch (RENV)

**NRC RAI Number: 2.3-5 (RAI 5763 Revision 2)**

Canal flows from Caccia and Boyer 2005 for the wet and dry seasons have been cited in ER Table 2.3-13. Provide flows for the L31E and Model Land Canal, as well as other canals near the site shown in Figure 2.3-10. The flow data should include flows to illustrate the seasonal variability such as wet and dry seasons.

**FPL RESPONSE:**

Canals near the Turkey Point Units 6 & 7 site other than the ones cited in ER Table 2.3-13 are: L-31E Canal, Model Land Canal and Canal C-111 (Canal 111 in ER Figure 2.3-10). There are no flow measurements available on the Model Land Canal. For Canal C-111 and for L-31E Canal, flow data are obtained from South Florida Water Management District's DBHYDRO database (SFWMD, 2009) and are given in ER Table 2.3-3 (Data period 1970 to 2008) and in ER Table 2.3-5 (Data period 1968 to 2008), respectively.

Table 1 summarizes the annual mean, wet season and dry season flows for L-31E Canal and Canal C-111. Wet season is from June to October and dry season is from November to May (Caccia and Boyer 2005).

Table 1. Annual Mean, Wet Season and Dry Season Flows for L-31E Canal and Canal C-111

	Canal Input (Cubic Feet per Second)		
	Annual Mean	Wet Season	Dry Season
Canal C-111	32.0	65.9	7.7
L-31E Canal	18.4	38.0	4.3

This response is PLANT SPECIFIC.
