Subject: NRC Staff Comments on Cimarron groundwater alternatives
Date: Wednesday, August 31, 2011 2:43:59 PM
Attachments: [NRC Staff Comments on cimarron groundwater alternatives.docx](#)

Bill,

Attached are NRC comments on the June 30, 2011, Draft Cimarron Environmental Response Trust Evaluation of Potential Groundwater Alternative Technologies. These comments are copied to ODEQ so as to facilitate discussion at the September 27, 2011 meeting.

I have also requested ODEQ provide its comments to you and the NRC before the meeting to further facilitate discussion. It would further expedite matters if, prior to the meeting, you can provide NRC and ODEQ with a preliminary written response regarding how you will resolve comments received from NRC and ODEQ.

We are looking forward to a productive meeting in September. During the meeting, we anticipate discussion and resolution of comments, and narrowing down the number of remediation alternatives. We also anticipate several more interactions with you and ODEQ as you work towards developing a remediation plan.

Thank you,

Ken
