

CABRERA SERVICES
RADIOLOGICAL • ENGINEERING • REMEDIATION

August 26, 2011

U.S. Nuclear Regulatory Commission
Document Control Desk
Washington, D.C. 20555

Subject: REPLY TO A NOTICE OF VIOLATION
Docket No. 03035316
License No. 06-30556-01
NRC Inspection Report No. 03035316/2011001

Attn: Document Control Desk

Please be advised that Cabrera Services, Inc. has taken the necessary actions to prevent a recurrence of the subject violation. Cabrera was cited for not conducting quarterly Radiation Safety Committee (RSC) meetings between December 23, 2009 and July 22, 2010 or between November 12, 2010 and May 27, 2011. These gaps occurred due to scheduling conflicts among members of the Committee and our attempt to have members physically present for the meetings. It should also be noted that Cabrera holds monthly Operations Managers meetings at which license issues are routinely discussed and the attendees at these Operations meetings include the members of the RSC. We believe this is an additional safeguard to ensure our license commitments are continually monitored.

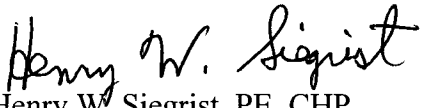

To ensure this commitment is met, an electronic notification system has been implemented with all Committee members responding. Attendance is mandatory and participation will include teleconferencing if any member cannot physically attend. A RSC meeting was held with required members in attendance on August 23, 2011. The next Radiation Safety Committee meeting is scheduled for November 22, 2011. With completion of these meetings full compliance for 2011 will be met.

Cabrera will continue to self-monitor compliance and immediately correct any condition observed that may be considered citable as described by the Notice of Violation.

JE07
RMT

We trust that these actions satisfy license expectations and that they will prevent any recurrence of similar Notice of Violation.

Sincerely,

Henry W. Siegrist, PE, CHP
Corporate Radiation Safety Officer
