Rich

We are scheduled for 12/14

>>> Richard Guzman 11/21/2006 11:50 AM >>>
Farouk, Bob,

The availabilities for projected LT/ET meeting slots can be viewed at <http://nrr4.nrc.gov/LTMeetingRequest/>. There is also very helpful guidance on meeting procedures and requirements, as well as an online tool for scheduling a meetings at the above NRR web page.

If you have any questions or need further assistance w/setting up a meeting, please let me know.

Thanks, Rich

Thanks, Cathy. We will work wih Rich to set up the briefing.

Jack:

Welcome to the Steering Committee of the State-of-the-Art-Report on Consequence Analysis (SOAR-CA).

>>> Catherine Haney 11/17/06 6:15 PM >>>
I raised the issue of a briefing this morning. Everyone seemed very interested in hearing about the project. I suggest that we use the weekly time slot for our ET/LT meeting on Thursday morning for this presentation.

I'll ask Rich Guzman to schedule and coordinate with you. He can also make some contact in NRO to see if they would be interested in attending (as space permits).

Also, Jack Grobe will be NRR representative to the Steering Committee.

Have a good weekend
Cathy
