Thanks Joe. I'm out this afternoon, but will be in around 8:00 a.m. tomorrow – preparing for the 9:30 call with FPL.

Manny, if you need anything else from Joe today, please email him directly. We can use the same corner office on the 3rd floor for the call.

Subject: RE: ETE RAIs - Turkey Point COLA

Bruce,

In the applicant's response letter dated May 23, 2011 to eRAI 5679, typically when a response required an edit to the applicant's ETE document, the actual text or changes to the document were included with the response. This allows a Confirmation Action to be developed in order that when a future version of the ETE document is received, the changes may be confirmed.

In response to RAI ETE 2.J and RAI ETE 2.K, the applicant described the changes to be made and the description is sufficient to address the RAI. The applicant then stated for each of these RAIs (2.J and 2.K) that text for Section 5 will be included in a future revision of the ETE Report, but did not provide that actual text for review. If we do not have the actual text to review, a Supplemental RAI would be developed requesting that the text be provided.

Next, after our conference call with the applicant on April 19, 2011, which Manny was the lead, some RAIs were removed from the submittal set because the applicant had submitted to NRC an updated ETE document in December of 2010. During the discussion, the applicant explained that a few of the RAIs in our original set had been identified by the applicant and corrected in the December submittal. In review of the December submittal, we confirmed that most of the RAIs that had been removed from the original set had been addressed in the ETE document. However, the following RAI was removed at that time but was not addressed in the updated ETE.

ETE-5: Analysis of Evacuation Times

Acceptance Criteria: Requirements A and H; Acceptance Criterion 11
Regulatory Basis: Section IV of Appendix 4 to NUREG-0654.

- A. Table E-7, "Turkey Point EPZ: Miami-Dade County Correctional Facilities," identifies the Dade Juvenile Residential Facility with 55 inmates and a capacity of 56 inmates. **In the ETE Report, provide an ETE for the correctional facility which should include the time to mobilize any specialized vehicles or trained drivers.**

It may be beneficial to discuss these with the applicant in Thursdays call.

Thanks,
Joe

Joe,

As we discussed, please provide the specific information needed in response to the ETE RAIs for Turkey Point, so we can share it with the applicant prior to tomorrow's conference call at 9:30. My understanding is that you need additional information for two of the RAIs we sent to FPL, and have an additional RAI that was inadvertently deleted from your (SNL's) original set of ETE RAIs. Be sure to include the RAI numbers. Include Manny Comar (project manager) in your response.

Thanks.
Bruce
