**RE: Midland Trail Energy LLC
Addition of Devices, Change of Address, Modification of License, and Change in
Management
NRC License No. 47-31315-01 03037777**

To Whom It May Concern:

On August 3, 2011, Midland Trail Energy, LLC, a subsidiary of Patriot Coal, purchased and became the operator of the Blue Creek Processing Plant formerly owned and operated by Campbells Creek Processing. As part of the transaction, Midland Trail Energy, LLC became the owner, operator, and responsible party for the regulated devices contained within the plant. As such, Midland Trail Energy, LLC hereby requests that the following devices be added to the aforementioned NRC License:

- 1.) Manufacturer: ThermoFisher Scientific
Model: 5201 Serial No.: B5203
Isotope: Cesium-137
- 2.) Manufacturer: ThermoFisher Scientific
Model: 5202 Serial No.: B3105
Isotope: Cesium-137

Additionally, Midland Trail Energy, LLC requests that Condition #10 of the license be modified. This condition currently reads as follows:

10. Licensed material may be used or stored only at the licensee's facilities located at 42 Rensford Star Route, Charleston, West Virginia.

The Blue Creek Processing Plant mentioned above is not located at this physical address. The physical address for the plant where the aforementioned devices are used and stored is 100 Catenary Coal Road, Charleston, West Virginia 25306. For further clarity, the coordinates of the Blue Creek Processing Plant are Latitude: 38° 20' 50"; Longitude: 81° 27' 31". The company is requesting that this site be added as a material usage and storage location in addition to the 42 Rensford Star Route location.

Midland Trail Energy

Furthermore, Midland Trail Energy, LLC hereby requests that our mailing and physical address for previous devices as found throughout the aforementioned NRC License as well as in the NRC records be changed. This change is due to local emergency service mapping that resulted in new mailing and physical addresses for the area. As such, the United States Postal Service updated their records as well. The previous address, as mentioned above, was 42 Rensford Star Route, Charleston, West Virginia 25306. The new address, for all mail correspondence as well as storage and usage, is **3301 Point Lick Drive, Charleston, West Virginia 25306**. Please note that the devices have not been removed or otherwise moved from their locations, only the address changed.

Lastly, Mr. John Hill who was previously listed as the General Manager, has left the company to pursue other opportunities. As such, I, Douglas Fala, have been appointed to replace him as General Manager of Midland Trail Energy, LLC.

In the event that you have any questions, I encourage you to contact Richard Beauchamp, Manager of Engineering for Midland Trail Energy, LLC at (304) 380-0424 or you may call me direct at (304) 380-0400.

Sincerely,

Douglas Fala
General Manager
Midland Trail Energy LLC

Cc: Randy McClaugherty, Radiation Safety Officer, Midland Trail Energy, LLC

This is to acknowledge the receipt of your (C) letter/application dated

8/31/2011, and to inform you that the initial processing which includes an administrative review has been performed.
