**Date:** Thursday, April 26, 2007 12:01:56 PM

---

Bob,

As we discussed, Peach Bottom has agreed to be an initial participant in the project. We are scheduled for a conference call w/PB tomorrow at 1pm 4/27 (O1F22) to ensure common understanding of the initial information needs, coordinate a plan for the site visit (see email below), and the other near term SOARCA activities and RES expectations. John Hughey will be the DORL representative during the call and I will be bridged in from home. Please confirm RES coverage/availability, and let me know who will be attending on the RES end.

I will pass you the bridgeline no. when it's available.

Thanks,  
Rich

>>> Johnny Hughey 04/26/2007 11:48 AM >>>

Peach Bottom has requested that the SOARCA teleconference be held tomorrow, 04/27/2007, from 1:00pm to 2:00pm. I have reserved conference room O1F22 for that time.

Dave Helker also said that they could not support a site visit next week. They are requesting that the site visit be held the week of May 21st. Dave said that is the time frame that they can support collecting the requested information and scheduling a site visit.

Thanks,  
John
