Jimi – as I've been playing phone tag w/the licensing POC, I recommend that you contact Barry Garber at Surry directly at 757-365-2725 to communicate the milestone schedule and importance of an 11/1 response target date for the requested site-specific information. I gave him the head's up via voice message that you may contact him in the next few days. I'll be fairly swamped w/3 units and an EPU this week and next.

Thanks,
Rich

Subject: Surry Conference Call

Jimi,

Just an update for you - I've left two voice messages w/my Surry POC regarding the request for a conference call to discuss the project's critical path/milestone schedule; in particular, the schedule for receiving their latest round of supplemental information. I will try to reach out again later today. My Surry POC is Barry Garber – 757-365-2725.

Rich
