Bob and Jimi -

Johnny and I can discuss the handling of licensee documents today at 2:30p in Jimi's office. (PPL Susquehanna requested that the 2pm call last no more than 30 min).

Rich

To All

We have a meeting today at 2:00. It would be effective if we could discuss this topic after our telecom with the licensee to see if we need a formal meeting and if so, to better focus the issue(s)!

Bob

Please schedule a meeting with Rich Guzman et. al, to discuss and document the manner that the SOARCA project should handle documents and information received from the licensees that is consistent with agency practices. We have talked about this on occasions and its evident we don't have a process, at least not a consistent one.
