

U.S. NUCLEAR REGULATORY COMMISSION

MATERIALS LICENSE

Pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974 (Public Law 93-438), and Title 10, Code of Federal Regulations, Chapter I, Parts 30, 31, 32, 33, 34, 35, 36, 39, 40, and 70, and in reliance on statements and representations heretofore made by the licensee, a license is hereby issued authorizing the licensee to receive, acquire, possess, and transfer byproduct, source, and special nuclear material designated below; to use such material for the purpose(s) and at the place(s) designated below; to deliver or transfer such material to persons authorized to receive it in accordance with the regulations of the applicable Part(s). This license shall be deemed to contain the conditions specified in Section 183 of the Atomic Energy Act of 1954, as amended, and is subject to all applicable rules, regulations, and orders of the Nuclear Regulatory Commission now or hereafter in effect and to any conditions specified below.

9. Authorized use:

A. through D. Research and development as defined in 10 CFR 30.4.

CONDITIONS

- 10. Licensed material may be used or stored only at the licensee's facilities located at 123 Huntington Street, New Haven, Connecticut, and Lockwood Farm, Hamden, Connecticut.
- 11. Licensed material shall be used by, or under the supervision of, Richard B. Peterson, Ph.D. and Neil Schultes, Ph.D. Licensed material specified in Items 6.A. and 6.B. of the license shall be used by, or under the supervision of, Joseph Pignatello, Ph.D.
- 12. The Radiation Safety Officer for this license is Richard B. Peterson, Ph.D.
- 13. The licensee shall not use licensed material in or on human beings.

Amendment No. 35

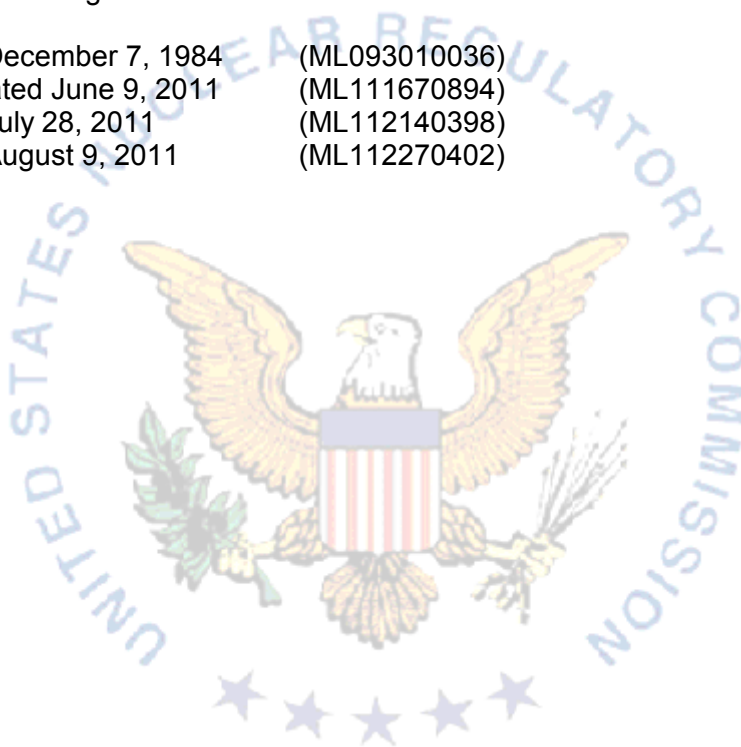

14. Experimental animals, or the products from experimental animals, that have been administered licensed materials shall not be used for human consumption.
15. The licensee shall not use licensed material in field applications where it is released except as provided otherwise by specific condition of this license.
16. Notwithstanding Condition 15 above, the licensee is authorized to conduct field studies with Carbon 14 at the licensee's facility at Lockwood Farm, Hamden, Connecticut in accordance with the procedures contained in letter dated December 7, 1984.
17. This license does not authorize commercial distribution of licensed material.
18. Radioactive waste possessed under this license shall be stored in accordance with the statements, representations, and procedures included with the licensee's waste storage plan described in the letter dated July 28, 2011.
19. The licensee is authorized to hold byproduct material with a physical half-life of less than or equal to 120 days for decay-in-storage before disposal without regard to its radioactivity if the licensee:
 - A. Monitors byproduct material at the surface before disposal and determines that its radioactivity cannot be distinguished from the background radiation level with an appropriate radiation detection survey meter set on its most sensitive scale and with no interposed shielding; and
 - B. Removes or obliterates all radiation labels, except for radiation labels on materials that are within containers and that will be managed as biomedical waste after they have been released from the licensee; and
 - C. Maintains records of the disposal of licensed materials for 3 years. The record must include the date of disposal, the survey instrument used, the background radiation level, the radiation level measured at the surface of each waste container, and the name of the individual who performed the disposal.
20. The licensee is authorized to transport licensed material in accordance with the provisions of 10 CFR Part 71, "Packaging and Transportation of Radioactive Material."

Amendment No. 35

21. Except as specifically provided otherwise in this license, the licensee shall conduct its program in accordance with the statements, representations, and procedures contained in the documents, including any enclosures, listed below. The U.S. Nuclear Regulatory Commission's regulations shall govern unless the statements, representations, and procedures in the licensee's application and correspondence are more restrictive than the regulations.

- A. Letter dated December 7, 1984 (ML093010036)
- B. Application dated June 9, 2011 (ML111670894)
- C. Letter dated July 28, 2011 (ML112140398)
- D. Letter dated August 9, 2011 (ML112270402)
