SUBJECT

C/N 318478 Cyclotron application: 1) Financial Assurance; and 2) Authorized Users Training and Experience

SUMMARY

I contacted Marc re: the following additional information that I need for their financial assurance and authorized users:

1. Financial Assurance: Essential Isotopes submitted a DFP and cost estimate for decommissioning FA that totaled \$358,118. Of that total \$161,153.10 is being provided by the University of Missouri in the form of a Statement of Intent, and the balance of \$196,964.90 is being provided by Mid-America Cyclotron (owner of Essential Isotopes) through a Line of Credit. However, the licensee did not submit the Line of Credit. I requested that Marc submit the document for our review.
2. Authorized Users: I requested that Marc provided more detail on the training and experience of the proposed authorized users. Specifically, I requested that he review NUREG-1556, volume 21, pages 8-16 through 8-18 for the information that is required.
