Question from Environmental Technical Support Branch (RENV)

NRC RAI Number: 2.3-1 (RAI 5763 Revision 2)

The identification of consumptive surface water users is provided as a GIS overlay (ER Figure 2.3-51). Figure 2.3-52 provides water needs for agricultural crops. Quantify the consumptive use and withdrawals by volume and duration for each of the identified users and the source of any data that are available. Data for monthly intervals is requested to show the seasonal variability of the withdrawals.

FPL RESPONSE:

A request for consumptive surface water use and withdrawals by month for all permits listed in Table 2.3-25 (and shown in ER Figure 2.3-51) was submitted to the South Florida Water Management District's Department of Public Records. Of all of the permits listed in Table 2.3-25, permits 13-00168-W and 13-03796 have pumping records available. These records are provided in Tables 1 and 2.
