Dear Mr. Lowden:

It has come to our attention that Amendment No. 47 to NRC License No. 13-18845-01 contained three errors. The authorization for Dr. Dupart now reads "35.300", the authorization for Dr. Engel now reads "iodine-131 in quantities equal to or greater than 33 millicuries" and the referenced letter, that was in error, now reads "December 16, 2010".

We apologize for any inconvenience this may have caused you.

NRC's Regulatory Issue Summary (RIS) 2005-31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through ADAMS, the NRC's electronic document system. Pursuant to NRC's RIS 2005-31 and in accordance with 10 CFR 2.390, the enclosed license document is exempt from public disclosure because its disclosure to unauthorized individuals could present a security vulnerability.
