REGION 1

License No. 06-00217-06
Docket No. 030-03754

Mr. John Nicholson
U.S. Nuclear Regulatory Commission, Region I
475 Allendale Road
King of Prussia, PA 19406-1415

Reference: **Letter, J. F. Conant to J. Joustra, dated June 14, 2011**

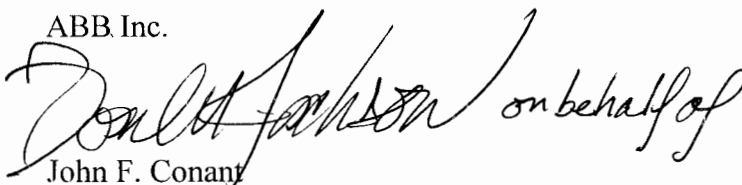

Dear Mr. Nicholson:

One of the commitments made in the Reference letter is to submit a schedule of dates by which Final Status Survey ("FSS") reports will be submitted to the U.S. Nuclear Regulatory Commission ("NRC") for the decommissioning and license termination of the ABB/Combustion Engineering Windsor, CT Site ("Site"). There are seven submittals planned between July 2011 and May 2012, and a final proposed schedule is enclosed, which is intended to replace the draft version shared with you at your last Site visit and inspection. This schedule obviously has a later trend than the draft version you received, but affords ABB a better opportunity to meet this important commitment, and allow the NRC a better opportunity to make best use of its resources and personnel to bring the Site to a timely license termination.

If there are any comments or questions regarding this submittal, please do not hesitate to contact me, or Heath Downey at (207) 939-5560 (cell), or by e-mail at hdowney@mactec.com.

Sincerely,

ABB Inc.

on behalf of

John F. Conant
Director, Nuclear Engineering & Compliance

JFC/et
