Subject: BWROG Comments on NRC Draft Proposed Criteria for OPDRV Enforcement Discretion
Attachments: NRC DRAFT PROPOSED CRITERIA FOR OPDRV ENFORCEMENT DISCRETION - BWROG Comments.pdf; NRC DRAFT PROPOSED CRITERIA FOR OPDRV ENFORCEMENT DISCRETION - BWROG Comments.doc

Thank you for providing the opportunity for the BWROG to comment on the NRC's draft proposed criteria for OPDRV enforcement discretion. We are very appreciative that the NRC is pursuing this option to assist plants with near-term outages while we develop improved Technical Specification requirements.

Our comments are included in the attached Word file as "tracked changes" and, in some cases, comments to explain the purpose of the change. We also attached an Adobe Acrobat file which shows the comments in "balloons."

We are available to discuss the proposed changes today, if needed.

We look forward to continuing this dialogue with the Staff on the long-term solution as well.

Sincerely,

Tony Browning
