SUBJECT: SUMMARY OF AUGUST 29, 2011, CATEGORY II PUBLIC
TELECONFERENCE WITH THE BOILING WATER REACTOR
OWNER'S GROUP (BWROG)

On August 29, 2011, U.S. Nuclear Regulatory Commission (NRC) staff held a public teleconference with representatives of the BWROG and industry. The purpose of the teleconference was to discuss a path forward on the Operations with a Potential to Drain the Reactor Vessel (OPDRV) issue. This teleconference was a follow up discussion to the public meeting held on July 27, 2011, on the OPDRV issue (meeting summary at Agencywide Documents Access and Management System (ADAMS) Accession No. ML11222A053).

The discussion during this teleconference was centered on the NRC staff's draft "proposed criteria for OPDRV enforcement discretion" which the teleconference participants were in receipt of prior to the teleconference. This draft can be viewed at ADAMS Accession No. ML112360106. This paper contains an explanation of the OPDRV issue and the proposed criteria for enforcement discretion. Subsequent to the teleconference the BWROG provided written comments on the staff's draft proposed criteria for OPDRV enforcement discretion. These appear as a Microsoft Word redline/strikeout version of the staff's draft paper with comments added in balloons and can be viewed at ADAMS Accession No. ML112510424.

There were no members of the public on the teleconference therefore no comments from the public were received.
