MEMORANDUM TO: John R. Jolicoeur, Chief
Licensing Processes Branch
Division of Policy and Rulemaking
Office of Nuclear Reactor Regulation

FROM: Andrew L. Hon, Project Manager **/RA/**
Licensing Processes Branch
Division of Policy and Rulemaking
Office of Nuclear Reactor Regulation

SUBJECT: SUMMARY OF AUGUST 18, 2011, PRE-SUBMITTAL MEETING WITH
DRS-CONSOLIDATED CONTROLS, INC. ON PLμS-32™ EQUIPMENT
TOPICAL REPORT

On August 18, 2011, a Category 2 public meeting was held between the U.S. Nuclear Regulatory Commission (NRC) staff and representatives of DRS-Consolidated Controls, Inc. (DRS-CCI) at NRC Headquarters, One White Flint North, 11555 Rockville Pike, Rockville, Maryland. The public meeting notice is available in the Agencywide Documents Access and Management System (ADAMS) as Accession No. ML112140565. The purpose of the meeting was to discuss information regarding an expected topical report submittal. A list of attendees is enclosed.

DRS-CCI representatives presented information on the proposed digital instrumentation & controls platform. The handouts are available in ADAMS as Accession No. ML11224A0110.

The NRC staff informed DRS representatives that the current technical review resources are limited such that priorities are given to those submittals that are directly tied to current generic safety initiatives and near term license amendment requests. DRS-CCI representatives acknowledged this constraint but still plans to submit to the docket and wait for the available review opportunities.

Members of the public were not in attendance.

Please direct any inquiries to me at 301-415-8480 or Andrew.Hon@nrc.gov.

Project No. 704
