Jared - as we discussed, I'm forwarding the below info just for your awareness. No action is necessary on your part, as the SOARCO folks from RES will be coordinating directly w/their designated SOARCA POCs on the Dominion side. Once again, thanks and it was good talking to you. Any questions on this subject, please feel free to contact me (or Karen Cotton).

Richard - sorry for the delay in getting back to you w/confirmation. I'm not sure if Karen has been in the office to respond to the initial request.

Regards,
Rich Guzman

Karen,

Please inform the residents as requested, and let Richard and I know when you've completed the action.

Thanks,
Rich

Rich,

I just wanted to firm up the plans for the trip with you. We will likely be arriving the morning of the 19th to the plant, and be there for most of the day. I had previously talked to Barry Garber about NRC staff coming for a day between 1/19-1/21, and he was okay with it. Since I have had trouble reaching him the past few days, I asked Bill Webster (also Dominion), and also accompanying us at the plant to reconfirm the date.

Could you please let me know when you have informed the residents, so that I know the communications circle is closed.

Thanks,
Richard

Ok. I'll let Karen Cotton (NRR plant PM for Surry) notify the resident. Once you firm up the details w/the licensee, please provide us the dates/times, so that we can give the residents a more definite timeframe/plan. Who will be your primary contact on the licensee side during the trip; i.e., who will be meeting you upon your arrival and facilitating your information needs/communications?

Thanks,
Rich

Rich,

As an FYI- we have been talking to plant for the past few weeks about going there on a trip. We are tentatively planning on going next week to reanalyze the ISLOCA scenario. Could you please inform the resident inspectors? Are there other people we need to notify?

Thanks,

Richard Chang
