(5) Letter, S.P. Murray to NRC Document Control Desk, 7/1/11, GNF-A ISA Action Plan Status and IROFS List

Global Nuclear Fuel – Americas, LLC (GNF-A) hereby submits the attached Integrated Safety Analysis (ISA) Summary supplemental information.

GNF-A requests that Attachment 1 to this letter be withheld from public disclosure in accordance with 10 CFR 2.390 and NRC RIS 2005-31 as it contains security-related sensitive information associated with our safety analyses & risk assessments.

GNF-A committed to an action plan which included a comprehensive review of the Integrated Safety Analysis (ISA) to address specific issues associated with the ISA (Reference 2). The new ISA is developed in stages as each major ISA review milestone is completed (i.e., Conversion, Fabrication, and Balance of Plant).

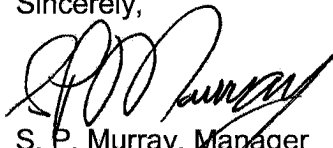

The ISA action plan has also resulted in revisions to safety basis documents, including the ISA Summary. As a result, for an interim period until the new ISA has been completed and fully implemented, GNF-A is maintaining two facility ISAs - the existing or previous ISA and supporting ISA Summary (Reference 3) and a revised ISA and supporting documents for the process areas that have been re-analyzed.

Page 2 of 2

The revised ISA for the Conversion area has been completed and implemented per the revised ISA action plan (References 4 and 5). A copy of an updated ISA Summary is attached for informational purposes only.

Please contact me on (910) 819-5950 if you have any questions or would like to discuss this matter further.

Sincerely,

S. P. Murray, Manager
Licensing and Liabilities

Attachment: 1) ISA Summary Supplemental Information for GNF-A Facility, (*security-related information*)
