Subject: FPL Turkey Point Uprate Annual Monitoring Report - August 2011

Rick,

I'd like to request 3 copies (by DVD I assume) of this report. I recognize that this monitoring is unrelated to the COL application and that the DVDs wouldn't be in an EIE-compatible format. But we believe the report contains information that would be useful for our review. Please let me know if you have any questions regarding this request.

Andrew Kugler
Sr. Environmental Project Manager
NRC/NRO/RAP2

Subject: FPL Turkey point Annual Monitoring Report

Good afternoon,

FLP has completed their first Turkey Point Annual Monitoring Report which is a comprehensive summation of surface water, groundwater and ecological monitoring and analysis conducted in and around the Turkey Point Power Plant. This report is available on the District web site at the following address under the FPL Turkey Point banner (September 2, 2011 hyperlink):

<http://www.sfwmd.gov/portal/page/portal/xweb%20about%20us/miami%20dade%20service%20center>

Appendix K and M are pdf copies of all wet chemistry lab reports documenting the lads QA checks performed on all samples and pictures of the ecological transect sampling sites. These files are large and in order to save time for downloading, were omitted from the web page. If you would like copies of these, please contact me and I'll send you a disc.

Thank you and have a nice weekend.
