Jon – just in case Scott Elkins didn't turn this over to you, I usually take a 'participate only as needed' approach for these team meetings. I'm usually tied up on plant EPU plant licensing calls and meetings on Thursday, so if there are instances where I miss something directly needing my (NRR) support (i.e., communications/information needs from the site, plants visits, public meetings, etc.), please fill me in after (as I know you've been doing already). That said, please continue to keep me on distro for these meetings and related emails, as it helps for my own awareness and planning/look-ahead purposes. Thanks!

Rich

Subject: FW: SOARCA Weekly Team Meeting
Importance: High

Team,

We are meeting today at 2pm in Church St. C2-C19. The call-in number is 888-950-5924 and the passcode is (b)(6). Here is a rough agenda:

1. Updates on schedule, including IA brief now scheduled for Friday, September 3, 2:00pm
2. Request for additional information for Peach Bottom/Exelon
3. Review staff comments for Summary Document (see attached)
4. Review staff comments for Appendix A (also attached)

Thanks,
Jon

Subject: SOARCA Weekly Team Meeting - Review Staff Comments for Summary Document
Importance: High

Team,

We will be using tomorrow's team meeting to discuss and resolve staff comments

EX. 6

N/9

pertaining to the Summary document. Of the initial ~400 comments for this document, 134 have been identified as requiring additional staff review. These 134 comments are in the attachment and are sorted by section of the document. Please review these in advance of the meeting as you like.

We will use the first 10 minutes to review general SOARCA issues but will then get started with the staff comments. If we need more time after 3pm, I have another room reserved which we can move to.

I will send out the call-in number and passcode later today or tomorrow when this information becomes available.

Thanks,
Jon
