**Attachments:** ML11189A0790.pdf

Marc,

The attached RIS has just been issued for Research and Test Reactors. To date, and my knowledge, there are no guidance documents for medical isotope production facilities and I assume that this RIS will be referenced in the NUREG-1537 supplemental guidance this fall. Since the complete document contains Official Use Only and Security Related Information, and is not included in the public version, how can I get a complete copy for SHINE? Do I need to go through you as the Project Manager or can you get me the contact information to get a complete copy?

thanks,  
Jim
