The FSAR figure you refer to is for a common Unit 1/Unit 2 system (Component Cooling System). The version in the Unit 2 FSAR is the old version last revised in Amendment 89. This figure will be changed to support dual unit operation. The notes you refer to are specifically for single unit operation and will be changing when the figures are updated for dual unit operation.

So are you wanting the notes from the old version (Amendment 89) or are you looking for how the notes will read for two unit operation?

Gordon and Bill,

Could you please provide us Notes 4 and 5 referenced on FSAR Figure 9.2-23? We are not able to find the notes.

Thanks.

John
