Jay,

I have reviewed aquatic resources sections of both the Hope Creek and Salem license renewal applications and have found those sections meet our acceptance criteria.

I have CDs in my office if you need them. If I'm not there feel free to take a set. You'll need two. I also have one hard copy of the coastal zone management act consistency determination if you need it. Just let me know if you take it since I only have this one copy. We're having some issues with getting the application into ADAMs, but hopefully that will be resolved by the end of this week. If you need anything else, please let me know. Thanks. Jay.

**Subject:** FW: Salem & Hope Creek License Renewal Application Acceptance Review

Folks, if you're on this email, I'm assigning you to do the acceptance review for the Salem & Hope Creek LRAs. I don't think the MLs are ready yet, but please see Donnie Ashley or Jay Robinson for the CDROMs.

There are 2 separate LRAs, so when providing input, please make a confirmatory statement for me to indicate that you've made 2 separate acceptances. I request that you provide input to me by Sept 18th. Please let me know if this time frame would pose a hardship on anyone, given that the GEIS meetings will start on the week of the 14th.

FYI, we should be hearing back from AECOM (formerly Earthtech) with their contract proposal this week. To make sure we all get a little breathing room after Prairie Island thru Kewaunee, I'm asking for full contractor

4

DB

support for these 2 LRAs, so you all will provide contractor oversight. Also, I'm proposing to initially do 1 SEIS for both LRAs. Once we get to Scoping, I expect that we'll hear by then any disagreement or objections to this approach, and we'll consider the merits of those comments then.

Thanks.

**Subject:** Salem & Hope Creek License Renewal Application Acceptance Review

Just to let you know that we have received the Salem and Hope Creek License Renewal Applications as scheduled. We're in the process of completing the blue sheets so we can schedule the technical portion of the acceptance review, but we just wanted to give you a heads up to expect a request for the acceptance review. The receipt letter will go out sometime next week, so the due date to complete the acceptance review will be towards the end of September/beginning of October. Cds of the application can be obtained from myself or Donnie Ashley. If you have any questions, please let me know. TAC numbers are below. Thanks. Jay.

ME1836, SALEM 1 - Salem Nuclear Generating Station, Unit - 1, License Renewal SAFETY Review
