SUMMARY

We have reviewed your requesting license renewal application and find that we are unable to continue this action until we have received information regarding the following:

(1) The application limited the radioactive materials request to those authorized under 10 CFR 35.100 and 10 CFR 35.200. The 31.11 materials were not listed on the license. Please confirm that you wish to remove these items from the license, and provide the last date the materials were used at the facility. Include the dates of disposal and/or transfer of 31.11 materials from the licensee. Include the date of final disposal of all such material, in addition to relevant area surveys, following disposal.

(2) The application lists two Authorized Users – David A. Williamson, M.D., and Bhaskar Shenai, M.D., as requiring limited authorizations for the use of sodium iodide I-131, under 10 CFR 35.300. Note that the NRC no longer lists limitations based on specific medical procedures. As we discussed, please indicate whether the 35.300 authorizations, for these two AUs, may be listed as "limited to the oral administration of 33 millicuries or less of sodium iodide I-131," as specified in 10 CFR 35.392.

(3) The Occupational Dose section, found on page 8 of the application, includes an outdated reference to NUREG 1556, Volume 5. Please resubmit the 8.23 Item 10 "Occupational Dose" section of the application, including an updated reference to the relevant NUREG volume, NUREG 1556, Volume 9, Revision 2.

We have requested that you submit the referenced items--

(1) **31.11 materials removal information,**

(2) **10 CFR 35.300 authorization information for AUs Dr. Williamson & Dr. Shenai, and**

(3) **a revised occupational dose statement including a current NUREG 1556 reference.**

-- via facsimile, to (630) 515-1078. Please reference the Control No. 574430, as listed at the top of this memo. We expect to hear from you on or before July 7, 2011.

For future reference, please always include the name, phone number and fax number of at least one person whom we may contact for additional information when reviewing your licensing correspondence and requests.

Please submit the requested information within 7 days of this record. **Include reference control number 574430, Please FAX your response to my attention at (630) 515-1078.** You may also scan your response and send to me via email, as a pdf file.

Please direct any questions you have to me at (630) 829-9892 or sara.forster@nrc.gov.
