AUG 05 2011

Jerry W. Drake, M.D.
Radiation Safety Officer
Oakwood Hospital and
Medical Center
18101 Oakwood Blvd
Dearborn, MI 48123-2500

Dear Dr. Drake:

Enclosed is Amendment No.103 to your NRC Material License No. 21-04515-01 in accordance with your request. Please note that the major changes made to your license are printed in **bold font**.

Please note that Shalini Pandya, M.S. was not added to your license as Authorized Medical Physicist (AMP). The information submitted regarding her training and experience was not sufficient. If you wish to pursue this matter in the future, please provide a copy of her American Board of Radiology Certification which should include the words "AMP Eligible" and provide the information specified in 10 CFR 35.51(b)(2) and (c). You may use NRC Form 313A(AMP) for the attestation and to document the type of authorization sought.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions. Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

The enclosed document contains sensitive security-related information.
When separated from this cover letter this letter is uncontrolled.

J. W. Drake, M.D.

NRC's Regulatory Issue Summary (RIS) 2005-31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through ADAMS, the NRC's electronic document system. Pursuant to NRC's RIS 2005-31 and in accordance with 10 Code of Federal Regulations 2.390, the enclosed license document is exempt from public disclosure because its disclosure to unauthorized individuals could present a security vulnerability. The RIS may be located on the NRC Web site at: <http://www.nrc.gov/reading-rm/doc-collections/gen-comm/reg-issues/2005/ri200531.pdf> and the link for frequently asked questions regarding protection of security related sensitive information may be located at: <http://www.nrc.gov/reading-rm/sensitive-info/faq.html>.

A copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

Toye L. Simmons
Materials Licensing Branch
