**Subject:** Switchyard and Offsite Power History  
**Attachments:** Unit 3 Mains WO History.pdf; 13kV WO History.pdf; 138kV WO History.pdf; 345kV WO History.pdf; 6900V WO History.pdf; CI - 138K - C or D or O.xls; CI - 345K - C or D or O.xls; CI - 6900V - C or D or O.xls; CI - 13800V - C or D or O.xls; CI - Unit 3 Mains - C or D or O.xls

Paul/Michelle,

As requested attached is the WO history from the last year on Switchyard and Offsite power. Also attached are the open corrective (C), deficient (D) and other (O) work orders for the associated components. Due to our search databases the WO history is pulled up on a system basis, so there are WOs in the files that are not associated with switchyard or offsite power.

Let me know if you have any further questions.
