Subject: Salem-Hope Creek SEIS

Jeff,

Charles Eccleston has requested that we (AECOM staff) establish contact with our NRC staff counterparts on the Salem-Hope Creek project this week. I've called but haven't reached you – so I thought I'd send an email.

We are proceeding with the pre-Audit draft of the land use and socioeconomics sections of the Salem and Hope Creek SEIS. No specific issues have come up yet, but we do have some data needs. I wanted to see if you have any specific needs or concerns regarding the project, in particular pertaining to the Site Audit next month.

I look forward to working together again.

Thanks,
Susan
