Steve:

I just open your e-mail: I have a lunch meeting right now, but I will look it over and get back by 2:00. However, if we miss something, we can capture it in a document we have due to Charles on Monday.

Hi Kevin. Here is the site audit needs list that Charles sent out. I am confused why the standard radiological items are not listed. I wanted to check with you if you submitted anything besides the tritium data reports? I also see the "LLRSF and hazardous waste procedures" on the list. I know I sent Charles and you my standard needs list. I am surprised Charles did not include the radiological items.

Did you send him anything? Maybe he lost my input and was relying totally on your input?

Before I go charging off on Charles, let me know what you did for the needs list.

Do you agree with my list? If yes, I will resend it to Charles.
