Dennis,

I'll come by and see you in the morning.

Charles

**Subject:** RE: Site Audit Needs List

Charles,

Not sure what to say: AECOM has not assigned an aquatic biologist yet as far as I know, so they have no sections started to know specifically what they need.

What you have written as a rough draft Site Audit Needs List is much too broad to be any help or to be submitted yet, and, besides, we are responsible for published information on the species and environment, not the plant, so we shouldn't be asking for that stuff. I know there are a lot of reports written for this plant, and we need to ask for some of them specifically.

Sorry I can't be more help but we are supposed to have a contractor on this one.

-Dennis

Team,

Attached is the Salem/Hope Creek Site Audit Needs List. Please review and let me know if you have any additions and/or changes. Send any changes to me by COB next Tuesday 2/23/2010.
