Subject: RE: Salem/Hope Creek Audit Plan & Schedule

Hi Charles: Thanks for sched and assignments. Please include me for the following:

1. Tour #4 (might have overlap with Interview #7);
2. Interview #5 (Solid Waste);
3. Tour #5 (T-lines);
4. Interview #10 (Air Permits);
5. Tour #9 (Wells and Outfalls);
6. Interview #8 (T-lines portion only) OR Tour #7 (effluent monitoring and emission points)

Suggest that it is easier for all presentation (safety, 2 & 3) on first day as well as boat tour --- so we can go from general overview to details of various protocols.

Since Salem/Hope Creek is about 2-3 hours away from Rockville and I am not familiar with NRC SOP, are we to stay March 8-12 in the area on tdy? Recommend a hotel in the area?

Thanks,
George

Subject: RE: Salem/Hope Creek Audit Plan & Schedule

Charles:

Please sign me up for the following:

Interview #3	Aquatic Resources
Tour #3	Estuary Water System
Tour #5	Transmission lines
Tour #6	Terrestrial Ecology

I concur with Jeff's comment re: the placement of Presentation #2 (Estuary Enhancement Program) before the tour for it (Tour #3),

and to move Presentation #3 towards the beginning of the week.

You may want to consider simply swapping Tour #3 and Presentation #2.

Please keep me on the boat tour if you decide to list boat tour participants by name.

Thanks,

Rich
