**Subject:** Revised Example Markup for TSTF-490, Revision 1, "Deletion of E Bar Definition and Revision to RCS Specific Activity Tech Spec"  
**Attachments:** WOG 3.4.16 Bases re-type-r.pdf; WOG\_3.4.16\_S-r.pdf

Michelle,

On yesterday's teleconference, we agreed to provide a revised example markup of the Applicability and Applicability Bases for TSTF-490, Revision 1, "Deletion of E Bar Definition and Revision to RCS Specific Activity Tech Spec." The files are attached.

These are editorial improvements only. The Reviewer's Note in the Bases clearly describes the requirements and there are no changes required to the justification.

Please let us know the schedule for any additional RAIs.

Thanks!

Brian
