Subject: Additional Info Request - Salem & Hope Creek
Attachments: Additional References to Request-Bulav-03-18-2010.doc

Charles:

Attached is my list of RAIs beyond the list you provided. These were located in an additional binder entitled "Environmental Backup Documentation" provided by the licensee at the site audit.

Steve - I checked and did not see these listed on the list of documents provided. Can you please double-check my work and let Charles know if you concur with this list? I'm out on training this afternoon, but should be able to check my e-mail once or twice. I am out tomorrow.

Thanks,

Rich

Additional References to Request

From the binder entitled "*Environmental Backup Documents*" provided to the NRC at the Salem and Hope Creek environmental site visit:

1. NJDEP "Utility Right-of-Way No-Harm Best Management Practices" (2009), as referenced in NJDEP 10/28/2009.
2. Avian Protection. This section was blank.
3. Letter BHDEO Threatened and Endangered Species Vegetation Maintenance dated 10/23/2009. This letter was previously requested as "ECO-7, but a letter dated 09/09/2009 was instead provided under ECO-7.
