We don't need a meeting, I'll call Bobbie. I think Dillard didn't get the message

Gentlemen:

I think it would be worth while having a brief meeting about this, particularly given the contract clause the Dennis pointed out.

Thanks, Dennis. By the way, Steve Duda won't be working on this project. He's currently keeping busy working on business development responsibilities, so I'll be the ecological point of contact for Salem/Hope Creek. Looking forward to working with you again.

Regards,
Steve

I will soon be following up with the other agencies (USFWS, state) to help make sure that we get the listed species information and to make sure they know about our site visit. I will keep in touch. I am assuming you didn't call--usually that is up to NRC staff rather than contractors.

We'll talk soon,
Dennis
