

UNITED STATES NUCLEAR REGULATORY COMMISSION

REGION III 2443 WARRENVILLE ROAD, SUITE 210 LISLE, ILLINOIS 60532-4352

AUG 2 4 2011

Michael R. Byrnes Radiation Safety Officer The Schneider Corporation 8901 Otis Avenue Indianapolis, IN 46216-1037

Dear Mr. Byrnes:

Enclosed is Amendment No. 1 amending your NRC Material License No. 13-32730-01 in accordance with your request. Please note that the changes made to your license are printed in **bold** font.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

Please note, we cannot terminate your NRC license until we have received and reviewed a copy of the results of your close-out survey. The close-out survey needs to include the information in the enclosed "Request for Additional Information".

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions. Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at http://www.nrc.gov/reading-rm/adams.html.

Sincerely,

Milliam P. Reichhold

Materials Licensing Branch

License No. 13-32730-01 Docket No. 030-37890

Enclosure: Amendment No. 1

Request for Additional Information

REQUEST FOR ADDITIONAL INFORMATION

Telephone (630) 829-9839 FAX (630) 515-1078

To: Michael R. Byrnes, Radiation Safety Officer

Location: The Schneider Corporation, NRC License 13-32730-01

Date: August 22, 2011

Please note, we cannot terminate your NRC license until we have received and reviewed a copy of the results of your close-out survey. The close-out survey needs to include the following information:

- a. Please complete the NRC Form 314, "Certificate Of Disposition Of Materials" (copy enclosed).
- b. Please list the radionuclides that were actually used or stored at your facility.
- c. Please submit information on any leaking sealed sources used or stored at your facility. Information needs to include the isotope, amount of leakage, contamination of other areas or personnel, description of the cleanup, and disposition of the source(s). If you did not have any leaking sources, please state so. Please submit a copy of the last leak test for the sealed sources.
- a. Please confirm that all radionuclides have been removed from your facility and transferred for disposal or transferred to another authorized recipient.

Please submit your close-out survey as additional information to mail control 575711.

Please call me at 630-829-9839 if you have any questions.

Fill Leithald

Bill Reichhold

CERTIFICATE OF DISPOSITION OF MATERIALS

PLEASE READ THESE INSTRUCTIONS BEFORE COMPLETING NRC FORM 314.

Subpart E of 10 CFR Part 20 establishes the radiological criteria for license terminations/decommissioning of facilities licensed under 10 CFR Parts 30, 40, 50, 60, 61, 70, and 72, as well as other facilities subject to the Commission's jurisdiction under the Atomic Energy Act of 1954, as amended, and the Energy Reorganization Act of 1974, as amended.

INSTRUCTIONS

Section B, Item 2.

Licensees should describe the specific radioactive material transfer actions. If radioactive wastes were generated in terminating this license, the licensee should describe the disposal actions taken, including the disposition of low-level radioactive waste, mixed waste, greater-than-Class-C waste, and sealed sources.

Section B, Item 2.a.

The information provided concerning the transfer of radioactive material to another licensee should specify the date of the transfer, the name of the licensee recipient, an individual contact name and telephone number for the licensee recipient, and the recipient's NRC or Agreement State license number.

Section B, Item 2.b.

For disposal of radioactive materials, licensees should describe the specific disposal method or procedure (e.g., decay-in-storage). For those cases when radioactive materials are disposed of by a licensed disposal site or by a waste contractor, the licensee should specify the name, address, and telephone number of the licenseed disposal site operator or waste contractor.

Section B, Item 2.c.

"Residual radioactivity," as defined in 10 CFR 20.1003, means radioactivity in 'areas' (structures, materials, soils, etc.) remaining as a result of activities (licensed and unlicensed) under the licensee's control from sources used by the licensee, excluding background radiation. ALARA is defined in 10 CFR 20.1003.
