Subject: RE: Information on Reported Hydrazine Spills at Salem

Thanks Charles. You made her do more work than I asked for. All I needed was for her to confirm that Hope Creek had no hydrazine discharges, but this definitely answers the question.

Appreciate it,
Jeremy

Subject: FW: Information on Reported Hydrazine Spills at Salem

Jeremy,

Nancy Ranek sent over some reports that discuss the hydrazine spill.

Charles

Subject: Information on Reported Hydrazine Spills at Salem

Hi Charles –

As you requested today by phone, I am attaching the following two Salem spill reports involving hydrazine:

Letter from PSEG (C. Perino) to NJDEP regarding PSEG Nuclear LLC – Salem Generating Station NJPDES Permit No. NJ0005622, NJDEP Case No. 05-04-08-1909-09 Five Day Report (concerning discharge of hydrazine on 4/08/2005). 4/13/2005.

Letter from PSEG (C. Fricker) to NJDEP regarding PSEG Nuclear LLC – Salem Generating Station NJPDES Permit No. NJ0005622, NJDEP Case No. 06-05-10-0235-20 Five Day Report (concerning discharge of hydrazine and ammonia on 5/10/2006). 5/15/2006.

These reports were previously provided to the NRC by letter from PSEG Nuclear dated April 29, 2010 (LR-N10-0152), which responded to requests for additional information (RAIs) following the Salem and Hope Creek License Renewal Environmental Audit. They were part of the response to RAI No. WTR-9. A copy of the WTR-9 Question & Response Sheet is also attached.

Please call if there are questions.

Thanks.
Nancy
