Rich,

Sorry for the delay in getting back with you. I was out on Friday. I believe the attached should answer your questions. The doc entitled PSEG responses should, I believe take care of the response sheet reference. If not, let me know and I will dig around some more. Also, I've attached the transcripts for the DSEIS public meeting.

If you need anything else, let me know.

Thanks,
Mike

Mike:

The Dec 16, 2010 letter with the PSEG comments on the DSEIS references ENV-94C 7 ENV-104A As their bases for recommended changes (Sect 8.0 of Enclosure – pg 12/16). It references an April 29, 2010 letter with Index. Index (ML1014402722) No. 37 & 37 reference "Response Sheet. March 2010". I cannot locate this response sheet. Do you know how to locate it?

Thanks,

Rich
