Form EIA-861 Data

Form EIA-861 Final Data File for 2009

This is an electric utility data file that includes such information as peak load, generation, electric purchases, sales, revenues, customer counts and demand-side management programs, green pricing and net metering programs, and distributed generation capacity. The data source is the survey Form EIA-861, "Annual Electric Power Industry Report." Data for all years are final.

The file F861yr09.exe is a file of data collected on the Form EIA-861, Annual Electric Power Industry Report, for the reporting period, calendar year 2009. The zipped .exe file contains 11 .xls files and one Word file, and a .pdf of the Form EIA-861. The data file structure detailed here also applies to data files for prior years.

- File1 contains aggregate operational data such as control area operators (years prior to 2005), energy balance, and revenue information from each electric utility in the country, including power marketers, and Federal power marketing administrations.
- File1_cao contains (2005 forward) data on control area operators.
- File1_a (2007 forward) contains data on the types of activities each utility engages in, the NERC regions of operation, whether the utility generates power, and if it operates alternative-fueled vehicles.
- File2 contains information on retail revenue, sales, and customer counts, by State and class of service (including the Transportation sector, new in 2003), for each electric distribution utility, or energy service provider in all 50 States, the District of Columbia, the Dominion of Puerto Rico, and the Territories of American Samoa, Guam, and the Virgin Islands.
- File3 contains information on electric utility demand-side management programs, including energy efficiency and load management effects and expenditures, and (2007 forward) the number of customers in time- and incentive-based rate programs (peak data is in megawatts for 2001 forward – in previous years the data are in kilowatts).
- File3a (2007 forward) contains the cost percentages by state of energy efficiency and load management programs.
- File4 contains the names of the counties, by State, in which the respondent has equipment for the distribution of electricity to ultimate consumers.
- File5 contains aggregate data of the number of customers by State and customer class for Green Pricing and Net Metering programs, as well as (for 2007 forward) the revenue and sales from Green Pricing programs and the energy displaced by Net

If you experience difficulty in downloading an EIA electricity data, please try substituting "eiainfo2" in place of "www" in the URL address.

Metering programs.

- File6 contains information on utility or customer-owned distributed and dispersed generation such as the number, capacity and types of generators.
- File7 (2007 forward) contains data on mergers and acquisitions
- File8 (2007 forward) contains data on advanced meters.

R=Revised Data. F=Final Data.

View [Contact Information](#) for Electric Utilities Selling to Ultimate Consumers, by State and Utility

Note: All sales data, including energy efficiency savings, are in megawatthours, peak and peak reduction data are in megawatts for 2001 forward and kilowatts for previous years, all revenue and expenditure data are in thousand-dollar units.

Final data for the years 1990 through 1998 are in self-extracting zip files which expand into 5 DBF files (F861TYP1.DBF, F861TY2A.DBF, F861TY2B.DBF, F861TYP3.DBF, F861TYP7DBF); and Notepad versions of the file layout ("layout"), the Form EIA-861 (WordPerfect), and EIA-861 Instructions (instr.wpd). To expand the file, type F861yy.EXE* (requires 5-6 megs space). The file structure for the years 1990 through 1998 differs from that for the 1999 and 2000 files described in the preceding paragraph. The primary difference is that file F861TYP1.DBF contains a combination of data available in the 1999, 2000, and 2001 in file1.xls and file2.dbf. Utility retail sales data, for utilities with sales in 3 or more States are shown in F861TYP3.dbf for the third, fourth, fifth, etc., States. Utility Demand-side Management information for the years 1990 through 1998 is available in F861TY2A.DBF and F861TY2B.DBF.

*Note: Substitute the applicable year for "yy" in the file name.
File Size: 550 k
