Nuclear Regulatory Commission

Attn: James Thompson
Sub: Temporary License Amendment

Dear Sirs,

We are requesting a temporary amendment to our Radioactive Material License # 46-27605-01.

The proposed temporary licence would be for storage of a CPN model # MC3.

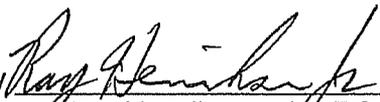

The proposed temporary license is per the request made by James Thompson of the NRC.

James A. Sewell and Associates, LLC has a licensed and approved storage facility and the ability to store the portable nuclear densometer until such time as a plan is formulated by the NRC to remove it from our custody.

Should you have any questions or need additional information regarding this matter please call me at (208) 263-4160 or e-mail me at rhenriksen@jasewell.com.

Sincerely yours,

JAMES A. SEWELL AND ASSOCIATES
