## Key Players: *Regional Entities*

[Regional Delegation Agreements](#) | [Regional Entity Executives](#) | [Regional Compliance Enforcement Programs](#)

NERC works with eight regional entities to improve the reliability of the bulk power system. The members of the regional entities come from all segments of the electric industry: investor-owned utilities; federal power agencies; rural electric cooperatives; state, municipal and provincial utilities; independent power producers; power marketers; and end-use customers. These entities account for virtually all the electricity supplied in the United States, Canada, and a portion of Baja California Norte, Mexico.

### Regional Entities

Florida Reliability Coordinating Council (FRCC)  
Midwest Reliability Organization (MRO)  
Northeast Power Coordinating Council (NPCC)  
ReliabilityFirst Corporation (RFC)  
SERC Reliability Corporation (SERC)  
Southwest Power Pool, RE (SPP)  
Texas Reliability Entity (TRE)  
Western Electricity Coordinating Council (WECC)
