Re: Extension of Section V Item 1 of EA-10-231

To Whom it May Concern:

Alaska Industrial X-ray would like to request an extension of the time frame of 120 days as written in the order to complete the training as required in Section V item 1 of EA-10-231. We request an extension due to the following reasons:

1. The submitted individual for training has not been accepted by the NRC as of this date.
2. One third of Alaska Industrial X-ray employees are scheduled to be out of town during the month of October when training could occur.

Alaska Industrial X-ray has complied with every aspect of the order thus far and will continue to do so; however an extension in this area of the order would be greatly appreciated.

Regards,

Donald Millar
