REF: NRC License #07-30325-01
Termination of license

030.34196

Siemens Healthcare Diagnostics, Glasgow holds NRC license 07-30325-01, with an expiration date of October 31, 2011. We are in receipt of your "Notice of License Expiration", and have made telephone contact with Mark Roberts from the NRC office on July 21, 2011, to discuss license termination activities. Following Mr. Roberts's guidance, Siemens is in the process of disposing of the remaining radiological inventory and conducting final facility contamination surveys. We expect to have this process completed by October 7, 2011. At that time we will submit NRC 314 and supporting documentation for your review.

Please contact me if there is any additional information or documentation that will be required to complete the termination activities.

Sincerely,

Roger B. Jamieson
Radiation Safety Officer
Sr. Manager, Global EHS Product Stewardship
