Dear John Walsh:

10 CFR 20.1101 (c) carries with it the requirements that you, as holder of U.S. Nuclear Regulatory Commission license #13-000418-02, be briefed at annual intervals by me, as the Radiation Safety Officer, on the status of the Radiation Safety Program at your facility. The following reports are from 12/10/2010 and 06/23/11.

By personal inspection, consultation with and review of reports generated by members of Standard Nuclear Consultants following their visits, and the issuance over my signature of appropriate directives to staff members providing Nuclear Medical Technical and Ancillary Support Services, you can be assured that radiation safety activities are being performed in accordance with approved procedures and regulatory requirements in the daily operation of the radioactive materials program.

In order to complete my file as directed in 10. CFR 20.1101 (c), it is requested you acknowledge receipt of this briefing by signing the attached copy and returning it to my attention.

Thank you for your cooperation in this matter.

Sincerely,

RECEIPT ACKNOWLEDGED

Dakshesh Patel, M.D

Administrator

Radiation Safety Officer

Date 9/22/11
