Subject : Page Changes to the Physical Security Plan

Louisiana Energy Services, LLC (LES) is required to submit non substantive changes to the Physical Security Plan, in accordance with 10 CFR 70.32(e), to the NRC within 2 months of implementation of such changes. LES approved changes to the Physical Security Plan (PSP) on September 2, 2011.

The change to the PSP is to bring the Separations Building Module (SBM) Extension inside the Controlled Access Area (CAA). There are no changes to Security Personnel, Security Procedures, Security Systems, or Security Processes. This change is in no way a degradation in the Physical Security Plan as identified in 10 CFR 70.32(e) and only uses previously approved methodologies and equipment.

Attached as Enclosure 1 are marked up pages to the Physical Security Plan. Revision bars, strikethroughs and underlines were utilized. Attached as Enclosure 2 is a clean copy of the Physical Security Plan. Because the Physical Security Plan contains Safeguard Information, LES requests that the Physical Security Plan be withheld from public disclosure in accordance with 10 CFR 73.21.

Respectfully,

David E. Sexton
