

September 5, 1990

Docket No. 50-333

Mr. John C. Brons  
Executive Vice President - Nuclear Generation  
Power Authority of the State of New York  
123 Main Street  
White Plains, New York 10601

Dear Mr. Brons:

In your letter dated May 8, 1989, the New York Power Authority volunteered to participate in the implementation of the Emergency Response Data System (ERDS) at the James A. FitzPatrick Nuclear Power Plant. Since that time, the efforts of your personnel in cooperation with our implementation contractor have resulted in the establishment of an ERDS link at FitzPatrick. FitzPatrick was one of the first facilities in the nation to establish such a link.

I have recently been informed that all operational testing of the ERDS link at FitzPatrick has been satisfactorily completed. The ERDS link at FitzPatrick is, therefore, considered operational and should be implemented in your emergency response planning as soon as possible. In addition, configuration control measures, as described in NUREG-1394, should be established to maintain the FitzPatrick data base in ERDS current.

At this time, I would like to recognize the efforts of Messrs. Arthur Zaremba and Tom Coffey. Their assistance and cooperation throughout the implementation at FitzPatrick was invaluable to the successful completion of the project.

Sincerely,

Original Signed by:  
E. L. Jordan

Edward L. Jordan, Director  
Office for Analysis and Evaluation  
of Operational Data
