Newark, DE 19714-6101

SUBJECT: SIEMENS HEALTHCARE DIAGNOSTICS INC., ACCEPTANCE OF
NOTIFICATION OF CESSATION OF ACTIVITIES AT A SITE, CONTROL NO.
576023

Dear Dr. Bedzyk:

Thank you for your letter dated September 19, 2011 notifying us that you have started license termination activities with an expected completion dated of October 7, 2011. You asked in the letter if there is any additional documentation that would be necessary to complete termination activities. Prior to termination of a license, 10 CFR 30.35(g), 30.36(k)(4) and 30.51 require that you submit to the NRC certain records. The following records will need to be submitted or an explanation why such records are not applicable:

- a. for unsealed materials with half-lives greater than 120 days, records for disposal made pursuant to 10 CFR 20.2002 (alternate disposal procedures, including burial authorized prior to January 28, 1981), 20.2003 (disposals to the sanitary sewerage system), 20.2004 (incineration of wastes), 20.2005 (disposal of specific wastes including liquid scintillation cocktail and animal tissue), and 20.2103(b)(4), evaluations of effluent releases.
- b. records important for decommissioning as described in 30.35(g). Examples of such records include but are not limited to: records of contamination, identifying the radionuclides, quantities and concentrations; as-built drawings and modifications of structures and equipment in restricted areas and locations of inaccessible contamination such as buried pipes; a single list, updated at least every 2 years, of areas to which access is limited for the purpose of radiation protection (restricted areas); and records related to the provision of financial assurance.

I have also enclosed a copy of NRC Form 314, Certification of Disposition of Materials for your termination submittal.

W. Bedzyk
