During our review of your renewal application facsimile received April 27, 2011, we identified several areas that need to be addressed. As we discussed through a phone call on September 29, 2011 with you, we need you to confirm the following:

- Please confirm that the Radiation Safety Officer (Dan Kribs) has not changed. If there was a change, please specify who will be the Radiation Safety Officer and submit a copy of his/her records of training.
- Please confirm that you have not received, possessed, or used Troxler Model Numbers 4640 gauges as authorized by the NRC license number 21-32548-01 Amendment 01. If you had them in the past, please provide records of transferring them to other authorized licenses. Also, please let us know if you are having any of Troxler Model Number 4640 gauge in your possession.
- Please confirm that the licensee is required to keep unauthorized persons away from the gauge at all times.
- Items 7, 8, and 10 in your submittal were incorrectly referred to NUREG-1556, Vol.1, dated September 2001. Please confirm that Items 7, 8, and 10 refer to NUREG-1556, Vol.1 dated November 2001.
- Please confirm that radiation survey has been performed and evaluated prior to Step 4 in the Emergency Procedures.

The correct version of NUREG 1556, Vol. 1, Rev. 1 "Consolidated Guidance about Materials Licenses: Program-Specific Guidance about Portable Gauge Licenses," dated November 2001 is available at our website:
