US Nuclear Regulatory Commission  
Mail Stop 011-F1,  
Washington D.C. 20555

To whom it may concern:

I am asking the commission to  
not re-licence the South Texas  
Project Reactors 1+2! This is  
a safety issue. There are  
cleaner <sup>more</sup> alternative ways to  
create the same power using  
energy efficiently and renewable  
energy sources.

Thank you for taking the time to  
read my letter.

Sincerely,  
Melanie Sallis (and family)
