NORTHERN STATES POWER COMPANY

MINNEAPOLIS, MINNESOTA 55401

November 24, 1975

Mr. J. G. Keppler
Director - Region III
Office of Inspection and Enforcement
United States Nuclear Regulatory Commission
799 Roosevelt Road
Glen Ellyn, Illinois 60137

Dear Mr. Keppler:

MONTICELLO NUCLEAR GENERATING PLANT
Docket No. 50-263 License No. DPR-22

This monthly summary report is submitted as requested in IE Bulletin 75-04A. (As discussed with Mr. E. Jordan of your office, this report is being submitted on November 24, 1975, rather than November 23, 1975.) As a result of the review of fire detection sensor and fire hose station locations, the following changes to the facility are scheduled to be completed by May 23, 1976:

1. Installation of fire detection sensors in the Standby Gas Treatment Room, the 4.16 KV Switchgear Area, and the Intake Structure Pump Room.
2. Installation of a fire hose station in the Intake Structure Pump Room.

Also, four fire hose stations located in the Administration Building have been fitted with nozzles designed for use on electrical fires.

Yours very truly,

A handwritten signature in cursive script, appearing to read "L. J. Wachter".

L. J. Wachter
Vice President - Power Production
and System Operation
